MyKronoz

Founded in January 2013, Kronoz LLC is a Swiss-based company that manufactures, designs and develops products that enhance our increasingly mobile, connected and digital lifestyles. With our brand MyKronoz, we strive to extend and facilitate the mobile user experience with stylish, intuitive and functional connected devices. In June 2013, we launched our two first smartwatch collections: ZeBracelet and ZeWatch, in many countries worldwide. We have a unique yet simple approach to wearable technology. Our aim is to offer a complete range of smartwatches for everyone. That's why our engineers work continuously on developing innovative technologies so that we can introduce new models quarterly.

ZeWatch

ZeWatch

ZeWatch is a smartwatch that tells time while offering much more. Compatible with all Bluetooth enabled devices, ZeWatch keeps you up-to-date with a glance at your wrist. On incoming calls, ZeWatch rings and vibrates, displaying the caller number and/or name* on its OLED screen. You can easily answer or reject calls thanks to its intuitive side buttons and integrated speaker/microphone. ZeWatch also lets you listen to music from your mobile device while on the go! When your phone is out of range, ZeWatch alerts you with a vibration, ensuring against theft or loss. With your phone's main functions readily available on your wrist, you'll stay connected at all times !

ZeNano is an innovative smartwatch that keeps you connected to your phone via Bluetooth. With its color touchscreen, integrated microphone and speaker, ZeNano acts as a wireless dialer, allowing users to handle calls directly from their wrist. Compatible with all Bluetooth devices, ZeNano also syncs with Android and iOS smartphones to download phonebook and call history. Stream music from your Bluetooth device and enjoy quality sound through ZeNano speaker or intra-auricular earphones included. With ZeNano voice-recorder, record audio memos and play them back. Use Siri through ZeNano to perform voice commands. If your paired device is away, ZeNano will alert you with a vibration. ZeNano is a versatile accessory that can be unclipped and worn in different ways. Switch ZeNano watch faces and wristband to match your daily style.

They Talk About Us

TRENDHUNTER TECH

"The MyKronoz gadgets are fashionable, comfortable and highly functional! These products are perfect for busy people who are always on the go."

Stuff

"The trend of connected watches has just begun and already new players are emerging. Swiss watchmaker MyKronoz launched a range of 3 smartwatches among which ZeBracelet. With its futuristic and well-rounded design, this smartwatch boasts a distinctive style."

COOL HUNTING

"In addition to displaying the time, MyKronoz's new smartwatches can connect to any Bluetooth device. They can also act as a phone; ringing and vibrating to alert the wearer to incoming calls."
